Unit Price Escalation

The Government has included an escalation methodology based upon the Bureau of Labor Statistics' (BLS) Employment Cost Index (ECI) for Total Compensation, Private Industry, Service Occupations (Not Seasonally Adjusted), to account for significant inflation and/or deflation. When the ECI exceeds 2.8% (plus or minus) in any given year the Government will adjust the established Per Aid Recipient pricing by any amount in excess of this rate. The calculated rate of escalation will equal the average of the 12-month percent change for the previous four quarters, ending June 30th. This ECI escalation or de-escalation will be applied beginning in September of the same calendar year. Further, this escalation or de-escalation will compound for all Per Aid Recipient Base and Option CLINs.

For example, ECI rate released may be June 2017 is 3.0%. The Government will increase unit pricing by .2% for the contract beginning September 1, 2017 and all remaining years of the ~~multiyear~~ contract.

A decreasing rate of inflation would follow the same pattern as above. For example, if the ECI decreases by more than 2.8%, then the unit prices for the remaining out-years will also decrease by the percentage in excess of 2.8%. For example, ECI rate released in June 2017 is -4.2%. The Government will decrease unit pricing by 1.4% for the contract period beginning September 1, 2017 and all remaining years of the ~~multiyear~~ contract.

(b) Prime contractor updates. Contractors are required to disclose new labor law decisions and/or updates to previously disclosed labor law decisions in SAM at www.sam.gov, semiannually. The Contractor has flexibility in establishing the date for the semiannual update. (The contractor may use the six month anniversary date of contract award, or may choose a different date before that six month anniversary date. In either case, the contractor must continue to update its disclosures semiannually.) Registrations in SAM are required to be maintained current, accurate, and complete (see 52.204-13, System for Award Management Maintenance). If the SAM registration date is less than six months old, this will be evidence that the required representation and disclosure information is updated and the requirement is met. The Contractor shall provide—

(1) The following in SAM for each disclosed labor law decision. This information will be publicly available in the Federal Awardee Performance and Integrity Information System (FAPIS):

(i) The labor law violated;

(ii) The case number, inspection number, charge number, docket number, or other unique identification number;

(iii) The date rendered;

(iv) The name of the court, arbitrator(s), agency, board, or commission that rendered the determination or decision;

(2) The administrative merits determination, arbitral award or decision, or civil judgment document to the Contracting Officer, if the Contracting Officer requires it;

(3) In SAM, such additional information as the Contractor deems necessary, including mitigating factors and remedial measures such as contractor actions taken to address the violations, labor compliance agreements, and other steps

taken to achieve compliance with labor laws. Contractors may provide explanatory text and upload documents. This information will not be made public unless the Contractor determines that it wants the information to be made public; and

~~(4) The information in paragraphs (b)(1) and (b)(3) to the Contracting Officer, if the Contractor meets an exception to SAM registration (see 4.1102(a)).~~

~~(c) Subcontractor responsibility. (1) This paragraph (c) applies--~~

~~(i) To subcontracts with an estimated value that exceeds \$500,000 for other than commercially available off the shelf items; and~~

~~(ii) When the provision 52.222-58, Subcontractor Responsibility Matters Regarding Compliance with Labor Laws (Executive Order 13673), is in the contract and the prospective subcontractor responded affirmatively to paragraph (b) of that provision, and the Contractor initiates a responsibility determination.~~

~~(2) The Contractor shall consider subcontractor labor law violation information when assessing whether a prospective subcontractor has a satisfactory record of integrity and business ethics with regard to compliance with labor laws, when determining subcontractor responsibility. Disclosure of labor law decision(s) does not automatically render the prospective subcontractor nonresponsible. The Contractor shall consider the prospective subcontractor for subcontract award notwithstanding disclosure of one or more labor law decision(s). The Contractor should encourage prospective subcontractors to contact DOL for a preassessment of their record of labor law compliance (see DOL Guidance Section VI, Preassessment). The Contractor shall complete the assessment--~~

~~(i) For subcontracts awarded within five days of the prime contract award or that become effective within five days of the prime contract award, no later than 30 days after subcontract award; or~~

~~(ii) For all other subcontracts, prior to subcontract award. However, in urgent circumstances, the assessment shall be completed within 30 days of subcontract award.~~

~~(3)(i) The Contractor shall require a prospective subcontractor to represent to the best of the subcontractor's knowledge and belief whether there have been any administrative merits determinations, arbitral awards or decisions, or civil judgments, for any labor law violation(s) rendered against the subcontractor during the period beginning on October 25, 2015 to the date of the subcontractor's offer, or for three years preceding the date of the subcontractor's offer, whichever period is shorter.~~

~~(ii) When determining subcontractor responsibility, the Contractor shall require the prospective subcontractor to disclose to DOL, in accordance with paragraph (c)(3)(iv) of this clause, for each covered labor law decision, the following information:~~

~~(A) The labor law violated.~~

~~(B) The case number, inspection number, charge number, docket number, or other unique identification number.~~

~~(C) The date rendered.~~

~~(D) The name of the court, arbitrator(s), agency, board, or commission that rendered the determination or decision.~~

~~(iii) The Contractor shall inform the prospective subcontractor that the prospective subcontractor may provide information to DOL, in accordance with paragraph (c)(3)(iv) of this clause, on mitigating factors and remedial measures, such as subcontractor actions taken to address the violations, labor compliance agreements, and other steps taken to achieve compliance with labor laws.~~

~~(iv) The Contractor shall require subcontractors to provide information required by paragraph (c)(3)(ii) and discussed in paragraph (c)(3)(iii) of this clause to DOL through the DOL Web site at www.dol.gov/fairpayandsafeworkplaces.~~

~~(4) The Contractor, in determining subcontractor responsibility, may find that the prospective subcontractor has a satisfactory record of integrity and business ethics with regard to compliance with labor laws if—~~

~~(i) The prospective subcontractor provides a negative response to the Contractor in its representation made pursuant to paragraph (c)(3)(i) of this clause; or~~

~~(ii) The prospective subcontractor—~~

~~(A) Provides a positive response to the Contractor in its representation made pursuant to paragraph (3)(i);~~

~~(B) Represents, to the Contractor, to the best of the subcontractor's knowledge and belief that it has disclosed to DOL any administrative merits determinations, arbitral awards or decisions, or civil judgments for any labor law violation(s) rendered against the subcontractor during the period beginning on October 25, 2015 to the date of the offer, or for three years preceding the date of the offer, whichever period is shorter; and~~

~~(C) Provides the following information concerning DOL review and assessment of subcontractor-disclosed information—~~

~~(1) The subcontractor has been advised by DOL that it has no serious, repeated, willful, and/or pervasive labor law violations;~~

~~(2) The subcontractor has been advised by DOL that it has serious, repeated, willful, and/or pervasive labor law violations; and~~

~~(i) DOL has advised that a labor compliance agreement is not warranted because, for example, the subcontractor has initiated and implemented its own remedial measures;~~

~~(ii) The subcontractor has entered into a labor compliance agreement(s) with an enforcement agency and states that it has not been notified by DOL that it is not complying with its agreement; or~~

~~(iii) The subcontractor has agreed to enter into a labor compliance agreement or is considering a labor compliance agreement(s) with an enforcement agency to address all disclosed labor law violations that DOL has determined to be serious, willful, repeated, and/or pervasive labor law violations and has not been notified by DOL that it has not entered into an agreement in a reasonable period; or~~

~~(3) The subcontractor disagrees with DOL's advice (e.g., that a proposed labor compliance agreement is warranted), or with DOL's notification that it has not entered into a labor compliance agreement in a reasonable period or is not complying with the agreement, and the subcontractor has provided the Contractor with—~~

~~(i) Information about all the disclosed labor law violations that have been determined by DOL to be serious, repeated, willful, and/or pervasive;~~

~~(ii) Such additional information that the subcontractor deems necessary to demonstrate its responsibility, including mitigating factors, remedial measures~~

such as subcontractor actions taken to address the labor law violations, labor compliance agreements, and other steps taken to achieve compliance with labor laws;

(iii) A description of DOL's advice or a description of an enforcement agency's proposed labor compliance agreement; and

(iv) An explanation of the basis for the subcontractor's disagreement with DOL.

(5) If the Contractor determines that the subcontractor has a satisfactory record of integrity and business ethics based on the information provided pursuant to paragraph (c)(4)(ii)(C)(3), or the Contractor determines that due to a compelling reason the contractor must proceed with subcontract award, the Contractor shall notify the Contracting Officer of the decision and provide the following information in writing:

(i) The name of the subcontractor;

(ii) The basis for the decision, e.g., relevancy to the requirement, urgent and compelling circumstances, to prevent delays during contract performance, or when only one supplier is available to meet the requirement;

(6) If DOL does not provide advice to the subcontractor within three business days of the subcontractor's disclosure of labor law decision information pursuant to paragraph (c)(3)(ii) and DOL did not previously advise the subcontractor that it needed to enter into a labor compliance agreement to address labor law violations, the Contractor may proceed with making a responsibility determination using available information and business judgment.

(d) Subcontractor updates. (1) The Contractor shall require subcontractors to determine, semiannually, whether labor law decision disclosures provided to DOL pursuant to paragraph (c)(3)(ii) of this clause are current, accurate, and complete. If the information is current, accurate, and complete, no action is required. If the information is not current, accurate, and complete, subcontractors must provide revised information to DOL, in accordance with paragraph (c)(3)(iv) of this clause, and make a new representation and provide information to the Contractor pursuant to paragraph (c)(4)(ii) of this clause to reflect any advice provided by DOL or other actions taken by the subcontractor.

(2) The Contractor shall further require the subcontractor to disclose during the course of performance of the subcontract any notification by DOL, within 5 business days of such notification, that it has not entered into a labor compliance agreement in a reasonable period or is not complying with a labor compliance agreement, and shall allow the subcontractor to provide an explanation and supporting information for the delay or non-compliance.

(3) The Contractor shall consider, in a timely manner, information obtained from subcontractors pursuant to paragraphs (d)(1) and (2) of this clause, and determine whether action is necessary.

(4) If the Contractor has been informed by the subcontractor of DOL's assessment that the subcontractor has not demonstrated compliance with labor laws, and the Contractor decides to continue the subcontract, the Contractor shall notify the Contracting Officer of its decision to continue the subcontract and provide the following information in writing:

(i) The name of the subcontractor; and

(ii) The basis for the decision, e.g., relevancy to the requirement, urgent and compelling circumstances, to prevent delays during contract performance, or when only one supplier is available to meet the requirement;

(e) Consultation with DOL and other enforcement agencies. The Contractor may consult with DOL and enforcement agency representatives, using DOL Guidance at www.dol.gov/fairpayandsafeworkplaces, for advice and assistance regarding assessment of subcontractor labor law violation(s), including whether new or enhanced labor compliance agreements are

~~warranted. Only DOL and enforcement agency representatives are available to consult with Contractors regarding subcontractor information. Contracting Officers or Agency Labor Compliance Advisors may assist with identifying the appropriate DOL and enforcement agency representatives.~~

~~(f) Protections for subcontractor misrepresentations. A contractor or subcontractor, acting in good faith, is not liable for misrepresentations made by its subcontractors about labor law decisions or about labor compliance agreements.~~

~~(g) Subcontractor flowdown. If the Government's solicitation included the provision at 52.222-58, the Contractor shall include the substance of paragraphs (a), (c), (d), (e), (f) and (g) of this clause, in subcontracts with an estimated value exceeding \$500,000, at all tiers, for other than commercially available off the shelf items.~~

~~(End of clause)~~

52.239-70 ACCESS TO CONTRACTOR AND SUBCONTRACTOR INFORMATION SYSTEMS AND RELATED RESOURCES IN CARRYING OUT PRIVACY AND INFORMATION SECURITY INSPECTIONS (DEVIATION)

(a) *Privacy and security inspections.* In accordance with the terms of this contract and as authorized by law, the Government carries out a program of privacy and information security inspections. Such inspections may be undertaken for various purposes, including but not limited to:

- (1) Examination of the security of federal information systems or of contractor information systems that process, store or transmit Government data, Government-related data, or controlled unclassified information, or which provide security protection for such systems (including vulnerability testing);
- (2) Information Technology security reviews;
- (3) Investigation and audit of administrative, technical, and physical safeguards taken to protect against threats and hazards to the integrity, confidentiality, and availability of Government data, Government-related data, or controlled unclassified information, or to the function of computer systems operated on behalf of the Government;
- (4) Review of contractor policies, procedures and practices for handling Government data, Government-related data, controlled unclassified information and other sensitive data;
- (5) Investigation of incidents involving actual or suspected improper releases of information (including cyber security incident response and reporting);
- (6) Conduct of forensic analyses, investigation of computer crime, or the preservation of evidence of computer crime; or
- (7) Review of the contractor's performance for compliance with the terms and conditions in the contract governing privacy and the security of information and information systems.

(b) *Requirement to provide access to information systems and related resources.* The contractor shall afford the Government, any Federal agency and its subcomponents including the Office of Inspector General, the Comptroller General of the United States, and their authorized third-party representatives, full and timely access to contractor information systems and related resources to the extent required to carry out privacy and information security inspections. The contractor resources to which Government inspectors shall have access shall include the contractor's installations, facilities, infrastructure, data centers, equipment (including but not limited to all servers, computing devices, and portable media), operations, documentation (whether in electronic, paper, or other forms) including full and complete certification and accreditation records, databases, and personnel used in the performance of this contract.

In the case of security audits, access shall be provided to all systems, components, network devices, virtualized devices, and the like, for the purposes of evaluating the security postures and controls implemented to prevent unauthorized access, modification, or destruction to Government data and systems. In addition, the contractor shall provide the Government the following information upon request:

- (1) any or all user-ids;
- (2) any or all system and/or database administrator passwords used for the operation and maintenance of the system or environment, and
- (3) security credentials, encryption keys, security algorithms, and the like;

to the extent needed to allow unfettered access to conduct a security audit or other privacy or information security inspection specified by the Government. The contractor shall also provide the Government access to all user passwords and all password

files to the extent necessary to validate the contractor's password policy. The contractor agrees to provide user ids and passwords regardless of whether the user is a Federal employee or not, so long as the user works in support of a Government contract, or may have access to Government data or Government related data.

In addition to providing such access, the contractor agrees to fully cooperate with the Government in its conduct of privacy and information security inspections. That cooperation shall include, among other things, timely and complete production of data, metadata, information, and records, and making employees of the contractor available for interview upon request. Cooperation also includes allowing the Government to make reproductions or copies of information and equipment, including, if necessary, collecting a machine or system image capture.

What constitutes "timely" access for purposes of compliance with this clause will depend on the circumstances surrounding the inspection being performed, the urgency of the matter under inspection, the procedures governing the inspection, logistical considerations, and other factors. In some cases, such as when investigating an on-going cyber security breach, access may be required within minutes of the Government's request. In other cases, access provided by the contractor within a few days of a request may be acceptable. In the event of an information security incident, including, but not limited to, incidents involving the loss or potential loss of

Personally Identifiable information in physical or electronic form, the contractor must respond (as required by other provisions of this contract, Departmental Directive OM: 6-107 "External Breach Notification Policy and Plan" and Handbook OCIO-14 "Handbook for Information Security Incident Response and Reporting Procedures" within specified time frames. Access to the contractor and subcontractor's information systems under this clause shall be provided when, and as necessary, to meet any applicable information security incident response times.

(c) Access to subcontractor information systems and related resources and clause flow-down.

Access shall also be provided to information systems and related resources of subcontractors at any tier that are providing information technology which requires security of information technology, and/or is designing, developing, or operating a system of records using commercial information technology services or support services. The fact that an information system is owned or operated by a subcontractor shall not excuse the prime contractor from ensuring full and timely access to such information systems and related resources to the extent necessary to conduct privacy and information security inspections under this contract or as authorized by law. The contractor shall ensure that it retains operational and configurational control over any information system (whether operated by the contractor or a subcontractor) as needed to conduct privacy and information security inspections.

The Contractor shall include the substance of this clause, including this paragraph (c), in all subcontracts, including subcontracts for commercial items.

(d) Cost of compliance. The aforementioned access and cooperation shall be provided by the contractor at no additional cost to the Government. However, if a Government inspection unduly delays the contractor's performance of the contract, the Contracting Officer may grant a contractor's request for a non-compensable delay, as appropriate and provided the contractor submits information adequate to support the request.

(e) Access to information systems where a cloud or a co-mingled data environment is used.

When the contractor will perform all or part of the work using commercial cloud computing services (whether directly or through a subcontract), or where Government data, Government related data or controlled unclassified information will be comingled with non-Government data, the contractor shall ensure that appropriate measures and controls are in place to allow Government inspectors to search the information systems and access information needed to conduct required privacy and information security inspections. The contractor may choose to create (at no cost to the Government) a segregated data space where inspections may take place without undue interference with non-Government data. However, the fact that Government data and non-Government data is co-mingled in the contractor's information system shall not excuse the contractor from affording the Government full and timely access and cooperation as needed to conduct privacy and information security inspections.

The Government shall protect against the unauthorized use or release of information obtained from the Contractor (or derived from information obtained from the Contractor) under this clause that includes Contractor proprietary information. To the extent practicable, the Contractor shall identify and mark proprietary information. In making an authorized release of such information, the Government will implement appropriate procedures to minimize the Contractor proprietary information that is included in such authorized release, seeking to include only that information that is necessary for the authorized purpose(s) for which the information is being released

(f) *Miscellaneous*. The access obligations under this clause will survive the expiration or termination of this contract, and this term is not to be less than 3 years following the final disposition and close out of the contract.

(g) *Remedies for breach*. A breach of the obligations or restrictions set forth in this clause may subject the Contractor to a Termination for Default, in addition to any other appropriate remedies under the contract.

(h) *Relation to other requirements*. The requirements of this clause are in addition to those required by any other inspection or audit clause of this contract. To the extent that requirements imposed by Federal law, regulation, Executive Orders, Office of Management and Budget (OMB) guidance, or standards promulgated by the National Institute of Standards and Technology (NIST) are in direct and irreconcilable conflict with the requirements of this clause, those other requirements, standards, laws, or regulations shall take precedence.

In conducting its security testing the Government intends to follow *NIST Special Publication 800-115 Technical Guide to Information Security Testing and Assessment* and other appropriate testing and assessment standards. Further, the Contractor agrees to negotiate in good faith rules of engagement and other supplementary agreements to govern specific privacy and information security inspections, with the goal of ensuring access necessary to conduct such inspections while protecting the contractor's property and other interests. Any such rules of engagement and supplementary agreements are incorporated into this contract to the extent not inconsistent with the terms of this clause.

These responsibilities include inspecting all deliverables, including reports, and recommending acceptance or rejection to the contracting officer.

(b) The COR is not authorized to make any commitments or otherwise obligate the Government or authorize any changes that affect the contract price, terms, or conditions. Any contractor requests for changes shall be submitted in writing directly to the contracting officer or through the COR. No such changes shall be made without the written authorization of the contracting officer.

(c) The COR's name and contact information: TBD

If the contractor will collect information requiring answers to identical questions from 10 or more people, no plan, questionnaire, interview guide, or other similar device for collecting information may be used without first obtaining clearance from the Chief Acquisition Officer (CAO) or the CAO's designee within the Department of Education (ED) and the Office of Management and Budget (OMB). Contractors and Contracting Officers' Representatives shall be guided by the provisions of 5 CFR part 1320, Controlling Paperwork Burdens on the Public, and should seek the advice of the Department's Paperwork Clearance Officer to determine the procedures for acquiring CAO and OMB clearance.

(b) The contractor shall obtain the required clearances through the Contracting Officer's Representative before expending any funds or making public contacts for the collection of information described in paragraph (a) of this clause. The authority to expend funds and proceed with the collection shall be in writing by the contracting officer. The contractor must plan at least 120 days for CAO and OMB clearance. Conflicts may arise in the following situations:

(i) *Unequal access to information* —A potential contractor, subcontractor, employee, or consultant has access to non-public information through its performance on a government contract.

(ii) *Biased ground rules* —A potential contractor, subcontractor, employee, or consultant has worked, in one government contract, or program, on the basic structure or ground rules of another government contract.

"Impaired objectivity" includes but is not limited to the following situations that would cause a reasonable person with knowledge of the relevant facts to question a person's objectivity:

(B) Significant connections to teaching methodologies that might require or encourage the use of specific products, property, or services; or

(C) Significant identification with pedagogical or philosophical viewpoints that might require or encourage the use of a specific curriculum, specific products, property, or services.

(2) Offerors must provide the disclosure described above on any actual or potential conflict (or apparent conflict of interest) of interest regardless of their opinion that such a conflict or potential conflict (or apparent conflict of interest) would not impair their objectivity.

(3) In a case in which an actual or potential conflict (or apparent conflict of interest) is disclosed, the Department will take appropriate actions to eliminate or address the actual or potential conflict (or apparent conflict of interest), including but not limited to mitigating or neutralizing the conflict, when appropriate, through such means as ensuring a balance of views, disclosure with the appropriate disclaimers, or by restricting or modifying the work to be performed to avoid or reduce the conflict. In this clause, the term "potential conflict" means reasonably foreseeable conflict of interest.

(b) The contractor, subcontractor, employee, or consultant agrees that if "impaired objectivity", or an actual or potential conflict of interest (or apparent conflict of interest) is discovered after the award is made, it will make a full disclosure in writing to the contracting officer. This disclosure shall include a description of actions that the contractor has taken or proposes to take, after consultation with the contracting officer, to avoid, mitigate, or neutralize the actual or potential conflict (or apparent conflict of interest).

(c) *Remedies.* The Government may terminate this contract for convenience, in whole or in part, if it deems such termination necessary to avoid the appearance of a conflict of interest. If the contractor was aware of a potential conflict of interest prior to award or discovered an actual or potential conflict (or apparent conflict of interest) after award and did not disclose or misrepresented relevant information to the contracting officer, the Government may terminate the contract for default, or pursue such other remedies as may be permitted by law or this contract. These remedies include imprisonment for up to five years for violation of 18 U.S.C. 1001 and fines of up to \$5,000 for violation of 31 U.S.C. 3802. Further remedies include suspension or debarment from contracting with the Federal government. The contractor may also be required to reimburse the Department for costs the Department incurs arising from activities related to conflicts of interest. An example of such costs would be those incurred in processing Freedom of Information Act requests related to a conflict of interest.

(d) In cases where remedies short of termination have been applied, the contractor, subcontractor, employee, or consultant agrees to eliminate the organizational conflict of interest, or mitigate it to the satisfaction of the contracting officer.

(e) The contractor further agrees to insert in any subcontract or consultant agreement hereunder, provisions that conform substantially to the language of this clause, including specific mention of potential remedies and this paragraph (e).

(c) The prescribed use and non-disclosure agreement is:

(5) The recipient agrees to indemnify and hold harmless the Government, its agents, and employees from every claim or liability, including attorneys fees, court costs, and expenses arising out of, or in any way related to, the misuse or unauthorized modification, reproduction, release, performance, display, or disclosure of data received from the Government with restrictive legends by the recipient or any person to whom the recipient has released or disclosed the data.

52.227-15 Representation of Limited Rights Data and Restricted Computer Software (Dec 2007)

(a) This solicitation sets forth the Government's known delivery requirements for data (as defined in the clause at 52.227-14, Rights in Data--General). Any resulting contract may also provide the Government the option to order additional data under the Additional Data Requirements clause at 52.227-16, if included in the contract. Any data delivered under the resulting contract will be subject to the Rights in Data--General clause at 52.227-14 included in this contract. Under the latter clause, a Contractor may withhold from delivery data that qualify as limited rights data or restricted computer software, and deliver form, fit, and function data instead. The latter clause also may be used with its Alternates II and/or III to obtain delivery of limited rights data or restricted computer software, marked with limited rights or restricted rights notices, as appropriate. In addition, use of Alternate V with this latter clause provides the Government the right to inspect such data at the Contractor's facility.

(b) By completing the remainder of this paragraph, the offeror represents that it has reviewed the requirements for the delivery of technical data or computer software and states [offeror check appropriate block]—

[] (1) None of the data proposed for fulfilling the data delivery requirements qualifies as limited rights data or restricted computer software; or

[] (2) Data proposed for fulfilling the data delivery requirements qualify as limited rights data or restricted computer software and are identified as follows:

EDAR 3452.209-70 Conflict of Interest Certification (MAR 2011)

(a)(1) The contractor, subcontractor, employee, or consultant, by signing the form in this clause, certifies that, to the best of its knowledge and belief, there are no relevant facts or circumstances that could give rise to an organizational or personal conflict of interest, (see FAR Subpart 9.5 for organizational conflicts of interest) (or apparent conflict of interest), for the organization or any of its staff, and that the contractor, subcontractor, employee, or consultant has disclosed all such relevant information if such a conflict of interest appears to exist to a reasonable person with knowledge of the relevant facts (or if such a person would question the impartiality of the contractor, subcontractor, employee, or consultant). Conflicts may arise in the following situations:

(i) *Unequal access to information.* A potential contractor, subcontractor, employee, or consultant has access to non-public information through its performance on a government contract.

(ii) *Biased ground rules.* A potential contractor, subcontractor, employee, or consultant has worked, in one government contract, or program, on the basic structure or ground rules of another government contract.

(iii) *Impaired objectivity.* A potential contractor, subcontractor, employee, or consultant, or member of their immediate family (spouse, parent, or child) has financial or other interests that would impair, or give the appearance of impairing, impartial judgment in the evaluation of government programs, in offering advice or recommendations to the government, or in providing technical assistance or other services to recipients of Federal funds as part of its contractual responsibility. "Impaired objectivity" includes but is not limited to the following situations that would cause a reasonable person with knowledge of the relevant facts to question a person's objectivity:

(A) Financial interests or reasonably foreseeable financial interests in or in connection with products, property, or services that may be purchased by an educational agency, a person, organization, or institution in the course of implementing any program administered by the Department;

(B) Significant connections to teaching methodologies or approaches that might require or encourage the use of specific products, property, or services; or

(C) Significant identification with pedagogical or philosophical viewpoints that might require or encourage the use of a specific curriculum, specific products, property, or services.

(2) Offerors must provide the disclosure described above on any actual or potential conflict of interest (or apparent conflict of interest) regardless of their opinion that such a conflict or potential conflict (or apparent conflict of interest) would not impair their objectivity.

(3) In a case in which an actual or potential conflict (or apparent conflict of interest) is disclosed, the Department will take appropriate actions to eliminate or address the actual or potential conflict, including but not limited to mitigating or neutralizing the conflict, when appropriate, through such means as ensuring a balance of views, disclosure with the appropriate disclaimers, or by restricting or modifying the work to be performed to avoid or reduce the conflict. In this clause, the term "potential conflict" means reasonably foreseeable conflict of interest.

(b) The contractor, subcontractor, employee, or consultant agrees that if "impaired objectivity", or an actual or potential conflict of interest (or apparent conflict of interest) is discovered after the award is made, it will make a full disclosure in writing to the contracting officer. This disclosure shall include a description of actions that the contractor has taken or proposes to take to avoid, mitigate, or neutralize the actual or potential conflict (or apparent conflict of interest).

(c) *Remedies.* The Government may terminate this contract for convenience, in whole or in part, if it deems such termination necessary to avoid the appearance of a conflict of interest. If the contractor was aware of a potential conflict of interest prior to award or discovered an actual or potential conflict after award and did not disclose or misrepresented relevant information to the contracting officer, the Government may terminate the contract for default, or pursue such other remedies as may be permitted by law or this contract. These remedies include imprisonment for up to five years for violation of 18 U.S.C. 1001 and fines of up to \$5000 for violation of 31 U.S.C. 3802. Further remedies include suspension or debarment from contracting with the Federal government. The contractor may also be required to reimburse the Department for costs the Department incurs

arising from activities related to conflicts of interest. An example of such costs would be those incurred in processing Freedom of Information Act requests related to a conflict of interest.

(d) In cases where remedies short of termination have been applied, the contractor, subcontractor, employee, or consultant agrees to eliminate the organizational conflict of interest, or mitigate it to the satisfaction of the contracting officer.

(e) The contractor further agrees to insert in any subcontract or consultant agreement hereunder, provisions that conform substantially to the language of this clause, including specific mention of potential remedies and this paragraph (e).

(f) *Conflict of Interest Certification.*

The offeror, [insert name of offeror], hereby certifies that, to the best of its knowledge and belief, there are no present or currently planned interests (financial, contractual, organizational, or otherwise) relating to the work to be performed under the contract or task order resulting from Request for Proposal No. [insert number] that would create any actual or potential conflict of interest (or apparent conflicts of interest) (including conflicts of interest for immediate family members: spouses, parents, children) that would impinge on its ability to render impartial, technically sound, and objective assistance or advice or result in it being given an unfair competitive advantage. In this clause, the term "potential conflict" means reasonably foreseeable conflict of interest. The offeror further certifies that it has and will continue to exercise due diligence in identifying and removing or mitigating, to the Government's satisfaction, such conflict of interest (or apparent conflict of interest).

L-1 Special Notice to Offerors

L-1.1 Failure to submit any of the information requested by this solicitation may be cause for unfavorable consideration.

L-1.2 Only the three offerors selected to participate in Phase II may respond: GreatNet Inc, PHEAA/IBM, and Navient/Deloitte.

L-1.3 Offerors are advised that the Government will utilize GCC Technologies and their subcontractors and consultants, to assist during the source selection. The exclusive responsibility for source selection will reside with the Government. Proprietary information submitted in response to this solicitation will be protected from unauthorized disclosure as required by Subsection 27 of the Office of Procurement Policy Act as amended (41 U.S.C. 423) (hereinafter referred to as "the Act") as implemented in the FAR. These companies are bound contractually by Organizational Conflict of Interest and disclosure clauses with respect to proprietary information. Contractor personnel assisting in the proposal evaluation are procurement officials within the meaning of the Act, and will take all necessary action to preclude unauthorized use or disclosure of a competing Contractor's proprietary data.

L-2 Solicitation Response Requirements

L-2.1 General

The Offeror shall submit documentation demonstrating their approach for satisfying the requirements of this solicitation. Proposals must be clear, coherent, and prepared in sufficient detail for effective evaluation of the offeror's proposal against the evaluation criteria. Also, this documentation shall cover all aspects of this solicitation and include the Offeror's approach for integration and program management activities. Proposals must clearly demonstrate how the Offeror intends to implement the requirements and must include convincing rationale and substantiation of all claims. Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete effective response to the solicitation are not desired and will not be considered in the evaluation.

The Offeror shall describe in its proposal, through the use of graphs, charts, diagrams and narrative, in sufficient detail for the Government to understand and evaluate the nature of the approach. In its evaluation and confidence assessment, the Government will consider the degree of substantiation of the proposed approaches in the proposal volumes and in response to any discussions. Nonetheless, the Government is seeking substance, not gloss.

Due to budgetary constraints, offerors should assume no significant development efforts will be required within the first 12 months. Additionally, offerors should assume that the borrowers currently serviced via the offeror's existing TIVAS portfolio will

be serviced under the new contract as of award. Existing TIVAS contract pricing will continue until all requirements have been implemented, at which time, modified pricing will take effect (as set forth in Section B of this contract). Offerors shall not enter into any exclusivity agreements with subcontractors. Nothing in the offeror's teaming agreement or other arrangement with a proposed subcontractor should prohibit or restrict in any way the ability of the proposed subcontractor from pursuing subcontract or teaming arrangements with other offerors participating in this competition or from entering in any such arrangement. Proposals that include the use of exclusivity agreements will be considered by the Government as deficient.

All correspondence in conjunction with this solicitation should be directed to MPDSETeam@ed.gov.

L-2.2 Proposal Volume Requirements

The proposal shall be accompanied by a cover letter (letter of transmittal) prepared on the company's letterhead stationery. The cover letter (letter of transmittal) shall identify all enclosures being transmitted and shall be used only to transmit the proposal and shall include no other information. The first or title page of each proposal volume shall be in accordance with FAR 52.215-1, paragraph (c)(2).

<u>Volume</u>	<u>Page Limit</u>
Past Performance	50 Pages (applies only to L.2.4.g)
Technical Solution	50 Pages
Technical Approach	50 Pages (Detailed Plan/Project Schedule may be an additional 30 pages)
Subcontracting	25 Pages
Price	No Limit

L-2.2.1 Page Limitations. The cover letter, title page, as well as sections of proposals comprising table of contents, table of figures, list of tables, a glossary, abbreviations and acronyms do not count against page count limitations. The completed Attachment A – Federal Loan Servicing Requirements also does not count against page limitation. Proposal contents that are found in any page beyond the stated maximum number of pages (page limit in table above) will be removed from the proposal by the Contracting Officer, prior to turning the proposal over to the Government evaluation teams, and will not be considered in the evaluation.

L-2.2.2 Format. Text shall be single-spaced, on 8 ½ x 11 inch page (except as specifically noted), with a minimum one-inch margin all around. Pages shall be numbered consecutively. 11 x 17 inch sized sheets may be used for tables, charts, graphs, or pictures that cannot be legibly presented on a 8 ½ x 11 inch page. An 11 x 17 inch sheet is equivalent to two pages (with regards to the page count limitations).

Print shall be of a minimum 12-point font size and a maximum 10 characters per inch (10-pitch, pica) spacing. Bolding, underlining, and italics may be used to identify topic demarcations or points of emphasis. Graphic presentations, including tables, while not subject to the same font size and spacing requirements, shall have spacing and text that is easily readable.

Each volume in the proposal shall include a copy of the cover letter (letter of transmittal), title page and table of contents. The table of contents shall list sections, subsections and page numbers. Each volume shall contain a glossary of all abbreviations and acronyms used. Each acronym used shall be spelled out in the text the first time it appears in each proposal volume.

L-2.2.3 Blind Copy. In addition to the proposal volumes identified above, offerors shall submit a duplicate Blind Proposal for the Technical Solution, Technical Approach, and Subcontracting volumes. This version shall not contain any company names, including teaming members or subcontractors. The Contracting Officer will assign each Offeror as Vendor A, Vendor B, or Vendor C, and this form of anonymous identification shall be used when referencing any company in the Blind Proposal.

L-2.2.4. Redacted Proposals. The Contractor shall be prepared to provide a redacted copy of its technical proposal (Technical Solution, Technical Approach and Subcontracting volumes) to the Contracting Officer within thirty (30) days after contract award. The redacted proposal shall be suitable for release by the Government under a Freedom of Information Act (FOIA) request. The redacted proposal shall be submitted in an Adobe electronic file format. Contractor shall also provide a redacted copy of any subsequent order or modification to this contract upon request by the Contracting Officer.

L-2.2.5 Submission Address. Offerors shall submit electronic proposals to MPDSETeam@ed.gov. Offerors must identify the RFP number in the Subject Line of the email and should include “# of #” if multiple emails are required for submission of entire proposal. Offerors are advised to submit electronic documents early and confirm successful transmission/receipt. Offerors also may want to consider sending more than one email to ensure size limitations will not hinder transmission.

L-2.2.6 Submission Due Dates. All volumes must be received by ~~December 12, 2016~~[January 9, 2017](#). The Government POC will provide a receipt showing the time and date of delivery.

L-2.2.7 Cross Referencing. Each volume, other than the Price volume, shall be written to the greatest extent possible on a stand-alone basis so that its content may be evaluated with a minimum of cross-referencing to other volumes of the proposal. Cross-referencing within a proposal volume is permitted where its use would conserve space without impairing clarity. Hyperlinking of cross-references is permissible. Information required for proposal evaluation, which is not found in its designated volume or cross-referenced, is assumed omitted from the proposal.

L-2.2.8 Electronic Submission Of Proposal. (a) By submission of a proposal on electronic media, the Offeror must ensure that the submission is readable, in the format specified in the solicitation, and has been verified as free of computer viruses. Prior to any evaluation, the Government will check all files for viruses and ensure that all information is readable. In the event that any files are defective (unreadable), the Government may only evaluate the readable electronic files. However, if the defective (unreadable) media renders a significant deficiency in the Offeror's proposal, the government may consider the proposal incomplete and not further consider such proposals for evaluation.

(b) The Offeror must ensure that:

- (1) It has verified that its electronic proposal is readable on the hardware and software operating system format specified in Section L2.2.2
- (2) It has verified that the electronic proposals are free of computer viruses using standard commercial anti-virus software.

(c) A proposal that fails to conform to the requirements of paragraphs (a) and (b) above may be subject to interception or delay at Governmental electronic communications portals. This interception or delay may result in the proposal being lost, deleted, destroyed, or forwarded in such a manner that the proposal arrives at the target destination past the time and date of the deadline for submission established in the solicitation. In the event that a proposal is lost, deleted, or destroyed due to the Offeror's failure to conform to the requirements of paragraphs (a) and (b) above, such proposal will be considered to have never been delivered to the Government. In the event that a proposal is delayed due to the Offeror's failure to conform to the requirements of paragraphs (a) and (b) above, the proposal will be treated as late in accordance with FAR 52.215-1(c).

L-2.3 Communication with the Contracting Office

Solicitation and amendments will be distributed via email to offerors. Offerors may e-mail written questions requesting clarification of the RFP to the Government at MPDSETeam@ed.gov. The Government will answer questions received up to November 9, 2016 regarding the Past Performance volume, and up to November 16, 2016, regarding the Technical and Price volumes. The Government will answer any additional questions received in response to the solicitation amendments by December 14, 2016. Questions received after this date may not be answered. - e. Determinations or Findings of Past Performance Failures. Provide a brief description of every instance in which a determination or finding has been made by the Offeror or its agents, by the Offeror's teaming partners/subcontractors or their agents, by a court or other tribunal, or by a government agency at any level of government (Federal, state or local) of a performance failure involving borrowers being misled, ignored, or provided wrong information or otherwise constituting abusive or improper customer service practices. Such determinations or findings may be found in compliance reviews and other reports prepared by the offeror and its proposed subcontractors, their affiliates or agents, in judgments, consent decrees and orders of a court or other tribunal, in administrative rulings, audits, and reports of investigation of government agencies, among other types of records. For each such determination or finding, state briefly:
 - i. the nature of the performance failure, when and why it happened, and the entities/individuals involved;
 - ii. the name, title and contact information for the judge, official, or other individual making the determination or finding.
- f. Lawsuits, Administrative Actions, and other Proceedings. Provide a list of every lawsuit, legal action or proceeding (including but not limited to administrative proceedings and suspension and debarment proceedings) filed, instituted, or joined by a government agency at any level of government (Federal, state or local) and which is based at least in part on allegations of wrongdoing or violations of law in loan servicing practices. In addition, the list should include every class action involving such allegations. For every such matter, also provide the following information:
 - i. Point of Contact at the responsible government agency or class action plaintiffs' counsel(s);
 - ii. Status of the matter;
 - iii. If the matter has been resolved, a description of the outcome;
 - iv. If the matter was settled, provide the principal terms of the settlement, indicating whether the Offeror, its teaming partners or affiliate, agreed to pay a fine, damages, or other amounts. If a fine or other amount was due, indicate as well whether it has been paid, and if not, why not.
- g. For any information provided, in particular information about allegations of improper loan servicing practices, the Offeror shall submit a narrative (limited to one-page) providing any context, fact or argument, as well as any corrective action, that the Offeror believes should be considered when assessing the relevance and merit of the information. For every item of information provided, the project or contract involved and the entity involved (whether the Offeror, its teaming partner(s)/subcontractor(s) and or an affiliated entity) should be specified.

The information listed above must be submitted for all team partners (whether subcontractors or in some other arrangement) that will be performing 10% or more of the work (as measured by dollars). The withholding of information contained in internal reports which is subject to the attorney-client privilege will not be deemed a weakness in a proposal.

The term affiliate has the same meaning as in the definition contained at FAR 19.101.

FSA reserves the right to obtain past performance information other than that described above and to consider such other past performance information in the evaluation and selection for award.

 - e. A detailed description of the systematic processes used to ensure that the organization has the right number of people with the right skills to fulfill business needs for both the servicing system development, and the performance of loan servicing.
 - f. A listing and description of the risk(s) the offeror perceives they will need to manage in developing the servicing solution and in performing loan servicing. Offerors shall likewise explain how they will manage these risks, and explain the process they use to identify and manage future risk (eg. Functionality is available in current system, including availability of post-award enhancements identified in Attachment A).
 - g. Complete Attachment A (Federal Loan Servicing Requirements), Columns C through J. For all items with enhancements to be done to the offeror's solution, include the schedule of when each of the requirements will be met, as well as logical groupings of systematic and/or operational implementations (releases). SECTION M – EVALUATION FACTORS FOR AWARD

52.217-5 Evaluation of Options (JUL 1990)

52.232-15 Progress Payments not Included (APR 1984)

M-1 Evaluation Factors and Rating Methodology

M-1.1 Evaluation Factors

The evaluation will be based on a complete assessment of the Offeror's proposal. Proposals shall be evaluated on the following factors. Past Performance is more important than all other non-price factors combined. All non-price factors are more important than Price.

1. Factor 1 – Past Performance. The Government will evaluate whether the Offeror clearly demonstrated the capability to effectively service student loans, provide high-quality customer service, keep borrowers in good repayment status, and avoid abusive or otherwise improper customer service practices, as demonstrated by its relevant past performance. The offeror's past performance will also be evaluated to determine its capability to successfully implement systematic and operational enhancements to a loan servicing system while continuing to meet cost, schedule and quality goals.
2. Factor 2 - Technical Solution. The Government will evaluate whether the Offeror's proposal clearly demonstrates that its technical solution (including the servicing solution and all peripheral systems used to support servicing loans) can meet the expected volumes and all requirements while minimizing risk and ensuring long term efficient operations of the solution.
3. Factor 3 - Technical Approach. The Government will evaluate whether the Offeror's proposed technical approach clearly demonstrates that it will have the ability to deliver high-quality customer service meeting all requirements, implement effective oversight to ensure compliance, ensure accountability and minimize risk of negative borrower impacts.
4. Factor 4 - Subcontracting. The Government will evaluate the extent to which the Offeror's proposed approach clearly meets the requirements to obtain teaming partners/subcontractors, to ensure high-quality, consistent customer service.
5. Factor 5 - Price. The Government will evaluate the reasonableness of the proposed price.
